GRANULATOR UNLOADER

Model 20-1500

The Hamilton Granulator Unloader is designed to replace the catch box on many brands of granulator. These units will deliver up to 2000 pounds per hour of ground plastic to a Gaylord container or portable storage hopper. These durable, economical units relieve your operator from having to check the fullness of drawers and emptying them, saving both down time from over packed drawer and your operator's back.

STANDARD FEATURES:

- Direct gear drive for low maintenance
- 2.7" flex auger in 3.5" OD tube
- 45 deg. hardened elbow
- 60" discharge height
- Custom drawer to fit granulator
- Controls with start-stop buttons
- NEMA 12 electrical
- Casters, 2 rigid
- Blue epoxy

OPTIONAL FEATURES:

- Vibrator
- Variable speed drive
- Explosion proof electrical
- Level control switch
- Stainless steel construction
- Custom paints and matching colours
