# PARTS UNLOADER

## Model 10-7050

The Hamilton Side Tilt Parts Unloader is designed to ease the back breaking task of unloading boxes by hand. The automatic tilting action allows the user to easily remove parts from Gaylord sized containers. The adjustable regulator permits setting initial lift at any desired weight. This unit will lift 1400# with only 80psi air pressure!

Hamilton Parts Unloaders are durable and easy to maintain. We use heavy duty flange bearings to ensure smooth controlled pivoting. Our ten gauge top deck is reinforced with structural steel to make it durable enough to stand years of abuse.

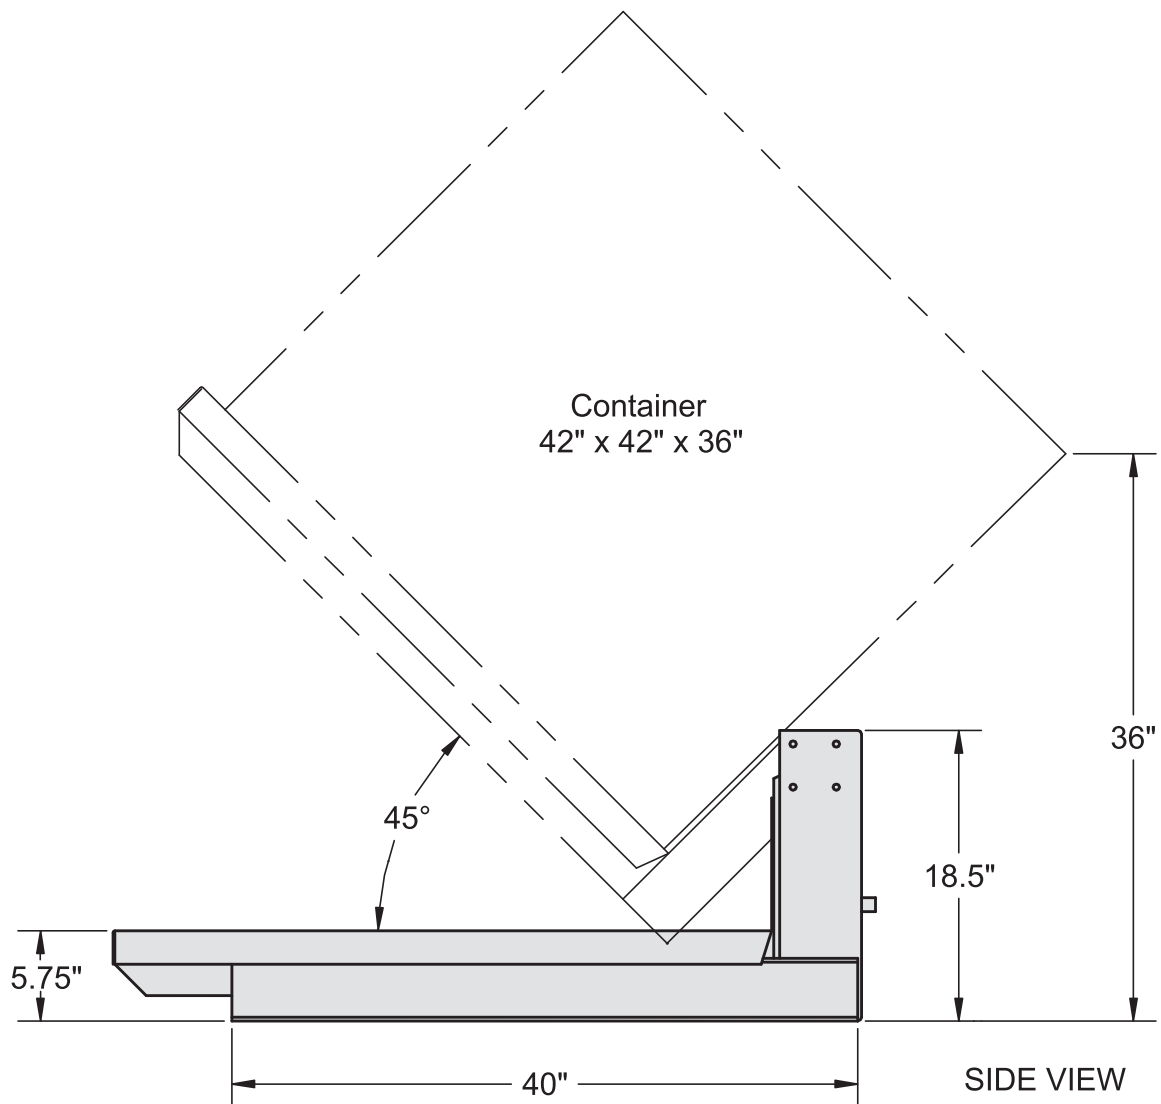

**STANDARD FEATURES:**

- Automatic or manual tilt action
- Foot pedal controlled
- Flow control to adjust operating speed
- 10 Gauge steel deck
- 4 Bolt flange bearings, 1"
- Double convoluted industrial air bag
- 45 Deg. tilt angle
- Hamilton grey epoxy

**OPTIONAL FEATURES:**

- Remote hand lever control valve
- Pneumatic turbine vibrator with controls
- 110v Electric vibrator with controls
- Custom paints and matching colours
