PORTABLE STORAGE BINS

Portable Storage Bins were designed to replace gaylords in your bulk material handling system. You can buy material in bulk and use Portable Storage Bins to distribute the material throughout your plant. These 44" square, stackable bins can be filled using Surge Bins, Screw Conveyors or Hydraulic Dumpers. They can be discharged through the 4" bottom slide gate or the optional 4 way vacuum ports.

These bins are built to last with a 14 ga. steel hopper and 2" x 1/4" angle frame.

We can custom design these bins with steeper side walls and larger slide gates for less flowable material. They can be made larger or smaller, from aluminum or stainless steel. Look over our list of features and options below and let us build a bin to suit your needs.

STANDARD FEATURES:

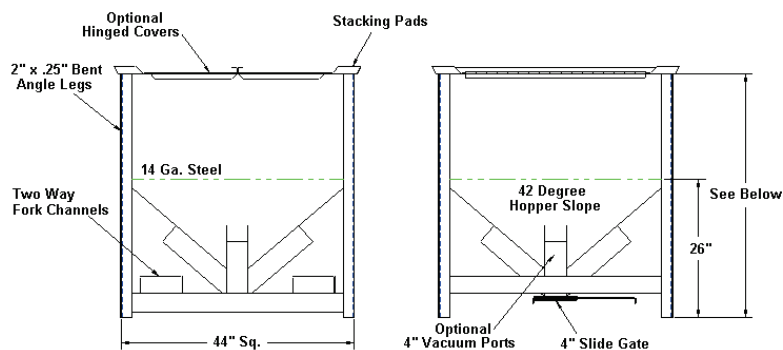

- Two way fork channels
- Flared stacking pads
- 14 Ga. hopper
- 2" x 1/4" Bent angle legs
- 4" Slide gate

OPTIONAL FEATURES:

- Four way vacuum ports
- Hinged covers
- Pallet jack entries four
- Way fork channels
- Foot pads
- 4" Casters (2 rigid, 2 swivel)
- One piece lay-on cover
- 1/3 - 2/3 Cover with loader mounting
- Epoxy interior lining
- Stainless steel construction

SPECIFICATIONS:

Capacity	Height	Height w/ vacuum ports
20 cu.ft. capacity	32"	36"
30 cu.ft. capacity	42"	46"
40 cu.ft. capacity	52"	56"
50 cu.ft. capacity	62"	66"
60 cu.ft. capacity	72"	76"
